Shobha Goswami

Dewas, Madhya Pradesh, India

Email | LinkedIn | GitHub

Career Summary

Motivated **MERN Stack Developer** with hands-on experience building full-stack web applications using **React, Node.js, Express, and MongoDB**. Experienced in authentication, real-time features, and deploying production-ready applications. Passionate about creating scalable, user-focused web solutions.

Education

B.Tech in Computer Science and Engineering — **2022 – 2026**
Medi-Caps University ,Indore — CGPA: **7.3**

School Education — **2020 – 2022**
School For Excellence ,Dewas — Class 12: **86.6%**, Class 10: **91%**

Technical Skills

Programming Languages	JavaScript , Java , Python
Core CS	Data Structures & Algorithms, Problem Solving, OOP,
Frontend	React.js, Next.js, HTML, CSS, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, Authentication & Authorization
Databases	MongoDB, MySQL
Tools & Platforms	Git, GitHub, Docker (Basics)

Projects

Chatty — GitHub | Project Link

- Developed a full-stack **real-time chat application** using the **MERN stack** with **Socket.IO** to enable instant one-to-one messaging.
- Implemented secure **JWT-based authentication** with HTTP-only cookies, protected routes, and persistent user sessions.
- Integrated **Cloudinary** for profile picture uploads and optimized media handling in production
- Built online user tracking and real-time presence updates using **WebSockets**, and deployed the application on **Render** with production-ready configuration.

DentWise — GitHub | Project Link

- Designed and developed a **dental appointment booking platform** using **Next.js**, **PostgreSQL**, and **Tailwind CSS**, delivering a modern, responsive user experience.
- Implemented secure authentication with **Clerk**, supporting Google, GitHub, and email/password login along with **email verification**.
- Built a structured **3-step appointment booking flow** (Dentist → Service & Time → Confirmation) and automated **email notifications and invoices** using Resend.
- Engineered an **admin dashboard** for appointment management, integrated **subscription-based payments**, and added an **AI voice agent** powered by Vapi for enhanced user interaction.

Wanderlust — GitHub | Project Link

- Developed a full-stack **travel accommodation listing platform** using **Node.js, Express.js, MongoDB, and EJS**.
- Implemented **user authentication and authorization**, allowing users to securely create, edit, and manage property listings.
- Integrated **Cloudinary** for image uploads and implemented robust validation and error handling for listings.
- Designed responsive and dynamic listing pages with location details and deployed the application on **Render** for production use.

Certifications

Data Structures & Algorithms	Apna College | 2024
Full Stack Web Development	Apna College | 2024
Google AI/ML Virtual Internship	Medi-Caps University | 2025

Leadership & Communication

- Demonstrated strong communication skills through team discussions, presentations, and peer collaboration.
- Actively contributed in group projects, coordinating tasks and ensuring timely completion.
- Comfortable explaining technical concepts clearly to both technical and non-technical audiences.
